

NEXTGEN DIGITAL YOUTH WORKERS

TRAINING COURSE IN LITHUANIA
November 26 - December 4, 2024

INTRODUCTION

In the face of growing challenges that affect young people and youth workers globally, our NGOs want to embrace innovation through digital technology. Recognizing the integral role that digital tools play in the lives of young people today, our project seeks to harness these technologies to foster deeper connections and engagement. Despite the advancements in digital platforms, research indicates a notable gap in the confidence of youth workers employing these tools effectively. Our project aims to bridge this gap by equipping youth workers with the skills and knowledge necessary to navigate the digital landscape confidently.
